## Customer Reviews

Katie Lovely is a Rubenesque high school teacher, somewhere in her late twenties. Shy and lacking self confidence, Katie loves to teach and bake. After signing her class up for an Adopt-a-Marine pen pal project, Katie finds herself one student short. What to do but adopt Sergeant Major Mark Gunner

as her own Marine - it's the right thing to do. Sergeant Major Mark Gunner, forty-something and a complete hunk, is serving in Yemen. It's the last tour of his military career. A lone wolf, Mark is happily surprised when he receives Katie Lovely's letter. A correspondence ensues between Mark and Katie that rapidly escalates into some serious heat. Add into this mix shipments of Katie's homemade chocolate chip cookies and Sergeant Gunner can't wait to come face-to-face with the lovely Miss Lovely and her delectable cookies. P. S. . . You're Mine is a very short Valentine novella by team Alexa Riley. As with many of their stories, P. S. . . You're Mine is focused on the Alpha male insta-loving his virgin mate. It takes a while for the action between Mark and Katie to happen, but when it does, it's of the vanilla, hot-to-breed variety. Much of this story is centered around the correspondence between Mark and Katie, and while it's good, the concept of insta-love via snail mail just didn't work for this reader. Perhaps Sergeant Gunner caught a whiff of Miss Lovely's pheromones on the envelope flaps . . . . Note: P. S. . . You're Mine is erotica written for a specific, targeted audience. It is meant to stimulate and arouse a bedtime/good-time tale for the grown-ups, not the kiddies. Three and 1/2 stars ARC provided from the author for an honest review.

The plots for the two holiday novellas were fine, but the writing was pretty flat, and the first-person narration (from multiple perspectives) seemed wooden. Also, what is up with the whole virgin-agrees-to-unprotected-sex-without-hesitation-and-gets-pregnant-on-the-first-try storyline? It is present in both novellas. And the stalking elements in the second (Christmas-themed) story "Snow and Mistletoe" freaked me out. If he---1) hires someone to monitor your activities 2) hires you to record audiobooks but then never sells those recordings--instead choosing to keep them for himself and masturbate to them 3) lives alone in a desolate cabin in the woods 4) simply announces that he has no intention of ever putting a "barrier" between the two of you during sex--I would personally run. And I would run as fast as my chunky thighs could carry me. Also, on a totally unrelated note: what woman discovers the address of her crush on a Christmas card and then jumps in her car to drive 3 hours to see him on "business" in a really ugly light-up Christmas sweater and leggings without so much as stopping to layer on some extra mascara?

Honest review. I adored this book. Loved the entire story line. Katie's a teacher and her class is writing to people in the military. She gets to right a letter as well to Mark, the Sergeant Major, and so they start being pen pals, which I love. Their letters are sweet and I love the back and forth between. This was my favorite Alexa Riley book to date. Sweet with just a hint of naughty, that is

Alexa Riley Short, sweet, feel good that you must read.1

I only got about ten pages in before I had to stop reading. I don't know what everyone else's reading, but this just didn't do it for me. Too fast paced, the letters and relationship forced, and you barely get a glimpse into the characters' personalities.

It's live!!! And I'm so happy right now, there are no words! Seriously, I don't know how many times I've checked for this baby. It was an immediate one-click, that's for sure! Looks like you're stuck with me, Sergeant Major Mark Gunner, And, boy, did she hit the nail on its head. What started off as part of a Civics project, called Adopt-a-Marine, latter turned into a life changing event for both, Katie and Mark. Neither of them expected to start writing letters to each other but as fate would have it, that's exactly what happens. And who knew a simple letter could at the end mean so much, right? Well, for those two it was the start of a wonderful long distance friendship. Over time and with each letter they both changed for the better. Katie from the shy mouse to a sexy, funny young woman and Mark from a stern sergeant to someone who would smile a hell of a lot more. As time passes and more letters come and go, both start to feel a lot more than just friendship. And despite never having seen each other in person, both know they found their missing half. When the time finally comes for them to meet, well, lets just say it was wow!!'m so happy they found happiness and family they both deserve! All I can say is, Alexa Riley did it again!!! A wonderful read, that you should not miss out on. :)

This really felt like a short story written for an intro college course. Everything was just so ... elementary.

Stars Spoilers! What's It All About: Katie Lovely signs up her class for a project, writing letters to Marines serving overseas, but a calculation error means she has to participate along with the class. When he gets a letter that captures his heart, everything suddenly changes. Their worlds connect and letters flow, creating a love unlike any other. But when their time is up and the letters stop, will his claim remain? Description taken from . The Best Parts: This story was one that I wasn't expecting. Normally with Alexa's story they are all awesome smut, but this one, this one definitely tugged at

my heart. The fact that the main character donâ™t even meet each other until the end just drives you more and more crazy with every letter that they get. Donâ™t get me wrong, the sex is steamy, but the story here was one that grabbed my attention and kept it. The Worst Parts: Of course I ALWAYS want more with Alexaâ™s books, but with this one I didnâ™t need more. I had just enough to fall in love with these characters and fully believe in their story even though it was super short.
