I really recommend this book especially to first time parents. It covers everything from what to eat to answering questions men are intimidated to ask about pregnancy and child birth.

Muy buen libro para todas aquellas mujeres que estÃ¡n planificando o que ya estÃ¡n embarazadas. Detalles semana tras semana del embarazo. En aÃ±adiciÃ³n los hombres tambiÃ©n aprenden y comprenden a sus ESPOSAS. Lo Recomiendo! Gracias.

Excelente libro aunque no es la ultima version. Es un libro para aquellas madres que necesitan informaciÃ³n que ni el medico ni la mama les va a dar, desde que se siente hasta como cuidarse.

Lealo!

"The perfect companion for Spanish-reading expectant parents. It is a must-have for doctors, midwives, and other health-care providers who need help communicating with Spanish-speaking patients. QuÃ© se puede has been carefully translated by Rosales Communications to be understood by all Hispanic linguistic groups--Cuban Americans, Mexican Americans, Puerto Ricans, Dominicans, and more." The book is a very good book, my wife seems to learn a lot from it. the amazing thing about this is how fast i got it. im actually doing some work on a Caribbean Island when we found out that my wife is pregnant. i bought the book and in 2 days it was on my hands... that is great delivery time and great service. it was expensive though.. but that is what i paid for. i needed it super quick and i got it super quick.

I bought this book for a former high school student of mine who found herself young, married, and pregnant this year. Next to a mother's advice, this is best thing out there. I owned the English version when I was pregnant, and it answered all my questions plus some! This is a highly useful book in every language!
