## Customer Reviews

Lone Wolf finds Jess Williams on the trail of the baddest of the bad once again. This time he's after four bank robbers who gunned down a clerk and a bank president, then trampled down an elderly woman who later dies. Jess joins up with a would-be gunslinger and a domesticated Timber Wolf named Shadow. The wolf always seems to show up when Jess needs him the most. Shadow is loyal and pretty intelligent as he saves Jess on more than one occasion. Point of fact, Shadow

steals the show in this novel. I sincerely hope that Shadow remains a character in the next few books. I've read all of the Jess Williams books and last year I re-read them all just to keep track of the number of kills Jess has made. At the end of this book, the total was at 991. The true history of the settling of the American West shows that the gunfights depicted in books and movies only happened two or three times per year. Random killings by bad guys were also very low at 5-6 per year. Even though the media portrays these incidents as common, the American West was actually safer than today's cities and towns. Of course, this wouldn't sell a lot of books or fill theaters, so we are faced with Western Fantasies like the Jess Williams series, which I love. I just wish that Robert J Thomas would write a longer, more involved novel once in a while so us rabid fans would have something to sink our fangs into. Wonderful book, Mr. Thomas!

Dorr Munn... Jess has been dogging him for a week & apparently he has run him to ground as someone is taking pot shots & of course, it's Munn. Jess is really nice though... he lets Munn have the last drink for the road before he sends him on to wherever bad guys go. Since it's late, Jess makes camp & will ride on to Howell, Texas tomorrow to turn in the body. In Howell, Marshal Judd Brion is going to speed up getting the reward money to Jess because he wants him out of town asap. As Jess is stabling his horses, trouble comes calling in the name of Champ Kiel & Archibald Noble. No surprise there! Later, after Jess has had a meal at the local cafe he again meets the two in the saloon but this time a gunfight is inevitable. Jess, for some reason even he doesn't understand, lets Champ live but tells him if he ever tries to draw on him again he will plant him. And so, we begin another exciting adventure in the life & times of Jess Williams, bounty hunter extraordinaire. Mr. Thomas is going to have to really dig deep in his bag of tricks to improve on this story because he's just moved the bar even higher for his fantastic story telling abilities. I loved Shadow & hope to see him in future books. Jess has got to be tired now... it's been a long time since he was home... maybe he needs to return to all of his friends... or maybe he needs to visit his sister or his lovely lady bounty hunter. Just thinking...

Great Jess Williams story. Enjoyed the humor of the two other bounty hunters that Jess dealt with in his own way. I especially liked Shadow and since he was still with Jess when he rode on at the end, maybe he will be with Jess in the books to come.

Mr. Thomas has done it again. I really enjoy all of his Jess Williams' series (so too my husband and daughter). Each book is a stand alone story, but I find I got a lot more out of the series reading it

from the beginning book to the last one. My only complaint is that Mr. Thomas doesn't write them fast enough. I have gotten where between books, I am re-reading (again) from the beginning until the next installment (then I read the new book). This book has some humor, a partner for Jess, and lots of action (as usual). (I especially like that they didn't kill off the timber wolf that Jess helps. I hate it when an author kills off animals.) Any fan of westerns will probably enjoy this series.

RJT has penned another excellent western novel. His western hero is up to his usual tricks chasing down the worst of the worst. He usually works alone, but has a new partner, which he named Shadow, a Timber Wolf. A very large Timber Wolf who enjoys going after the bad guys as much as JW does. This is an excellent read for the genre..... ER

Shadow won my heart. I have read and own every Jess Williams book. Mr. Thomas writing has improved greatly concerning typos and grammatical errors. I was almost ready to give up on the series near the beginning but just adored his characters and the emotional growth of Jess as time progressed. I hope Shadow stays. I would love to see reactions to him in Black Creek or from John Bodine.

I really love reading these books about Jess Williams. He always gets his man. But he is very generous to the sheriff and other people. I love that he found Shadow I really hope to see Shadow in the future books as a side kick to Jess. Keep these books coming, can't wait for number 45.

As always the stories that Robert Thomas writes about Jess Williams Series keep getting better. Shadow is a great touch. Bring back the lady BOUNTY hunter. Now with those three in a book would be awesome. Now reading Lone Wolf for the third time. THKS
