Customer Reviews

Ever since I was a kid my parents have complained about my bad breath. Now that I'm married my wife complains to. Needless to say, I've been pretty desperate for an answer. This book is the first time I've found something that really helped. I can't say that I've been cured or anything, but I definitely have felt an improvement. My wife is DEFINITELY grateful for this book haha

This guide is very straightforward and explains what can cause halitosis. If you suffer from bad breath this book will definitely not disappoint as it is worth the purchase price. This book will help you identify if you have bad breath, what causes it and what you can do to prevent it. I recommend this book to anyone who suffers from this condition.

Great book! It's very well written and detailed, but it's also very easy to read. I definitely learned a few things as to what causes bad breath, but I liked how there are several solutions given in the book. Lastly, I like the additional links section. It's definitely an interesting topic!

A bit different to say the least, but i have to say, they work. I strongly recommend them to any men trying to meet a special someone for the first time, if your going in for that kiss, you don't want to be denied. And as strange as this book may seem, it works. i use some of the remedies every day just to stay fresh.
