Customer Reviews

This is excellent- students are engaged by the essays. The chapters on writing techniques in the second half are extremely well done. Students actually pay attention and try to follow the instructions, which are clear and specific. Their essays have become more coherent and focused. This is the first semester I've used it. I'll continue to use it.

This is not your run of the mill freshman reader. The reading choices are thoughtful and span global and chronological space.

It turns out this book was the correct one for my class and it is actually interesting.

Book was very helpful in my sons class
