From Main Chic To Side Chic: The La'Quela Chambers Story

Synopsis

People often wonder, what would make a beautiful, independent woman choose to be number two, when being number one is so much better. But the real question is...is being number one really better? Before she met Tremaine 'Tre' Jefferson, La'Quela 'Lala' Chambers had always been number one...the main chic...never settling for anything less. That is until Darien Hill opened her eyes as to what it really meant to be the main chic.

The beginning was kind of boring because I got tired of Darien carrying Lala's ass. Lala was darn dumb and stuck on stupid but I'm sure some females can relate because some will do anything to say that they have a man. When Tre came on the scene I was happy because I cannot get enough of Lala and Tre. I really love them together and can relate with her messing with Tre and being the side. Sometimes when you are the side you think it can be all sex and nothing more or nothing less but after several times of sexual inter course feelings are gonna get involved and you can't help who you love

I have been a big fan of LaLa since I read Side Chic 1. Even though she wasn't the main chic in the series, she touched my heart in a major way. Now with this book, we get to see what her life was like before Tre. And even though Tre did put her through some ish.... Darien truly DID NOT have any love for her. I did expect to see more drama in this book, the way we did in the Side Chic series. That being said, we did get an intimate look at how bad her relationship was with Darien. Lala was so in love with this guy, she couldn't not see that he was using her. In the second half of the book, we got a deeper look into the affair of Lala and Tre. Enjoyed!

I loved reading the back story on Lala. She went thru a lot before even meeting Tre. I feel so bad for her, because in the end all she wanted was love and somebody to be down for her like she was for them.

LaLa will always be my favorite character and I like the back story even more. The struggle and abuse both mental and physical was heartfelt. Every girl or woman should read this story so they can know their self worth, and they can overcome and know they are not alone. Her parents were God sent and knew what she needed, their love, support and affection not judgment. I loved this book whole hearted and recommend it to all readers.

I like the action and details. I laughed at some of the characteristics in the characters because they had flaws that they could see in others but not in themselves. Good read. Buy all the stories you'll need the sequels as soon as you finish

The beginning was kind of boring because I got tired of Darien carrying Lala's ass. Lala was so dumb and stuck on stupid. When Tre came on the scene I was happy because I cannot get enough of Lala and Tre. I really love them together. I love the relationship they had because it shows a different side to Lala than when she was with Darien's dumb ass. I can't believe she couldn't see she was being used. Loved the story

I got to say I was never a Lala fan but after reading this it definitely made me feel sorry for her and what she has put up with. I still don't care for her choices but I guess some half weak moments at times. Being with someone like Darien was a no brainer, someone mistreats and if you lose someone who was yours then they were never yours from the start. The whole Tre and Lala story was definitely both their faults but more Tre because he kept making himself take two steps back

when he was still with Kisha. Very interesting and sad story.

This book explains everything in the side chic series. I felt connected to Lala's situation and understand how she came to the conclusion as to what was best for her. It wasn't an ideal situation but I am sure a lot of people has been in her shoes and made the same decision she made. I think Tre and her relationship came at a time when they both needed something fresh and new. The perfect ending to a great series.
