## Customer Reviews

When you're a hacker that gets caught you've got big problems. Mason is great at what he does. He been hacking since he was a kid. His fingers are fast to fly over a keyboard as well as all the women he seems to go through. Working for an underground hacking group trying to bring people

corrupting the government to light, Mason uncovers something that may get him jailed, or worse, killed. He turns to the one person he trusts and the only person he's ever loved--his step-sister Carly. Hiding out away from everyone Carly lives in a cabin in the middle of nowhere trying to make her news blog a success. When her long lost step-brother Mason shows up on her doorstep, her world comes crashing down. She's tried to forget about her adolescent crush on him but now he's in trouble and needs her help. Will they be able to put their feelings aside for the greater good, or could one night of passion be the answer to their lust-filled problems. Loved the story overall, just seemed to be lacking some of the steaminess I've come to expect from a Lauren Landish novel. There was steam, but I just wanted more! Funniest scene was in the beginning....reminded me of a scene from the movie Swordfish. Read the book and you'll see what I mean! Still a great read!\*\*I was given an ARC in exchange for an honest\*\*

I was gifted with an ARC of "Razor" for an honest review. I've read multiple books by Lauren Landish & they keep getting better, I think I have another favorite author!!! Mason "Razor" & Carly are step-siblings & haven't seen each other since he walked out after a huge family fight. Razor is a hacker & a great one at that, he has been given the task of breaking in to the SFPD to retrieve a video that will expose a corrupt mayor & solve the murder of a prostitute, bringing closure to her family but he gets caught. Razor needs help & the only person he can think of, that he can trust, is his stepsister Carly a struggling journalist. They are pursued not only by the authorities but also a crazy ex-girlfriend, of all people his dad & the group "Anonymous" that Razor was working with, Mason didn't realize exactly how much danger he put himself & Carly in. The heat between these 2 while trying to keep a low profile is Amazing!! The back story so the reader knows and understands the history of the feelings they've had toward each other all these years, is fantastic!! Wait til you see the battle Mason & Carly wage to keep their relationship strictly brother/sister, professional & keeping themselves alive with everyone after them. LOVED this book!!!

This is my type of book- the stepbrother in love with his stepsister book. And who better to tell the story than Lauren Landish. This isn't just the stepbrother loves stepsister book. It has suspense, trust issues, hot and steamy sex scenes, and just to let you know, these characters are over 18 yo. Carly has loved her stepbrother Mason for as long as she could remember. Then he just disappeared out of her life as if he never existed. When that happened, she gave up on letting anyone else in-that way she wouldn't be hurt as Mason hurt her. She moved on with her life and is now working as a journalist, albeit has some lean times and hard times. Several Years go by and

suddenly on her doorstep is Mason "he needs Carly's help and she is helpless to refuse him. Mason aka Razor has been and is a hacker and a pretty good one. He has been hired to get into SFPD to retrieve a video that will expose a corrupt mayor & solve the murder of a prostitute. But things didn't go as planned because he sort of got caught. He needs a place to hide "hide from the authorities, his nutty ex girlfriend, his dad and the hacker group Anonymous". Now Mason has to protect not only himself but Carly. The chemistry between these two are insanely great. As the reader, we get to see the story between these two and the angst and pain is there but also the heat and chemistry is awesome. There is a huge trust issue between the MC after all these years but they work toward this as Mason is working toward saving himself and Carly. There are twists and turns as they work to stay alive. The ending is outstanding and the HEA will make you swoon with happiness for Mason and Carly. My rating: 4.7 stars \*\*\*\*\*I was given an ARC by the author in exchange for an honest review\*\*\*

The best hacker around Razor belonged to the group Anonymous. And he had something that they wanted. A thumb drive that would expose the mayor of slashing the throat of a local prostitute. But he needed help of someone he could trust, and his stepsister Carly was just that person. The sexual tension between them would become too much until they both gave in to it. On the run now they were in danger of Andre and Maddy finding them. Will they ever be able to return to the US? Will Razor pay for his crimes??

I was given this book for a honest review. I truly enjoy all of her books, and this was no exception. Mason and Carly have known each other for years, and for certain reasons Mason leaves for a period of time. What I loved about this was the upfront disclosure of their feelings. We know they are attracted to each other, but they fight it for various reasons. The alternating POV is always my favorite, and I just loved the honest feelings up front. If you are looking for a great story with fantastic characters and some hot, steamy scenes this one is definitely a winner. Looking forward to the next book by this author.
