## Customer Reviews

The Lessons is an upbeat romantic comedy made complete with quick-witted dialogue and in-depth characterization. Elizabeth Brown brings a common dilemma to the table ("the curse of the 30 year old virgin") and explores it through unconventional means. If the plot alone hasn't captured your attention, be assured that the racy scenes between the two main characters will bring you to your

knees and leave you begging for more. Natalie is a planner. (You know the type!) She has meticulously strategized a plan for her life and makes every endeavor to stick to the plan. "I got out a big red pen. It was time to make some edits." -Natalie Unfortunately, as in most cases, life doesn't always happen the way we expect (or hope) it to. Natalie has just approached her 30th birthday. "Thirty. Nothing like a milestone birthday to make you take stock of things. And me? This birthday made me realize how ashamed I was and how far my life had swung off course." -Natalie Natalie is unmarried, alone, and despite her attractive physical features and successful career, she has somehow managed to maintain "virgin status". At this point in her life, her virginity is weighing her down and causing her severe anxiety. Natalie bravely makes a "new plan". She decides to leave her current life in New York and venture to San Francisco where she will continue her professional success at a new job and turn in her V-Card! What does one do when they want to safely rid of their virginity? Simple, they hire a sexual surrogate. Natalie is confident that once she has sex she will be able to move forward with her life and get back to "the plan".

The Lessons by Elizabeth Brown Book #1: Off-Limits Series Source: Netgalley My Rating: 1/5 stars My Review: **\*\*REVIEW IS SPOILERISH\*\*** Dear Reader, I think you can tell from my star rating that I was not at all impressed with Elizabeth Brown's The Lessons. As always, I don't feel like I can just slap a number on a review without explaining myself. My primary objection to this read is the fact that nearly every character is lying piece of crap. Natalie literally moves across the country so no one she knows will know she is still a virgin at the age of thirty. You see, Natalie had a plan in place for her life, one which involved doing all the big life things on a schedule and that schedule was not to be deviated from. Unfortunately, when her first serious boyfriend came out of the closet, well, the plan was well and truly derailed!! In order to get her plan back on track, Natalie has to lay the groundwork and she does this researching sexual surrogates. Knowing this is a service that is generally reserved for people with actual sexual issues, Natalie has to build an entire backstory in order to be accepted into the program. Not only does she make up at least two boyfriends but she also makes up abuse and lets the idea of a fictional rape cross her mind in order to secure her place with the shrink. I really should have stopped reading at this point but Natalie acknowledges how wrong this would be. But making up boyfriends and other forms of abuse is OK?? Moving on . . . once Natalie begins her "treatment" she is to meet with a man who will help her overcome her sexual issues (and by that I mean her virginity!) and move on with her life and plan.
