## Customer Reviews

Absolutely loved this book. A true story of a woman and her life as a Escort. Its a story of laughs, oopsies and sorrow. I thought Lilliana wrote this book really well. Changed my perception of the sex industry. Very good read.

I found this book fascinating. I was always interested about what happened inside the escort world. Imagine going to be an escort at 36. I found her to be funny and couldn't put the book down. No

holds barred with this one. What a character she must be, wished I lived next door to her!! now have to go immediately and purchase the first book, keep writing the both of you, I can't get enough. I am totally hooked.

Genre: Biography Author: Lilliana Anderson Book: Confidante: The Escort My star rating: 4 out of 5 will I re-read this? Maybe Since I Like the first book, where she told her stories of working in a brothel for a month, I got this book where she started working as an escort. (After finishing book 1, I downloaded this book and read it in one day.) Knowing that she is done working in a brothel, she decided to try Escort services. This world is much different than the brothel. She would have to go to the parties hotel rooms or out to dinner then off to the house or hotel. But as an escort you can make a lot more money than the brothel. So here are the stories an escort. Great read and quick read as well. Cant wait for the last installment

This story is just as great as the first one. It is comical and intriguing. The main character tells her story without reserve. There is details of the good and the bad of being an escort in Australia. Definitely worth reading.

Sure could have been a lot better - the books starts very slow and is incredibly poorly written at first before launching into some interesting stories about the world of prostitution - that's the only way to describe it, and I will not be wasting my time reading any of the other books in the series

I really enjoyed these books, but I am not happy that the third one in the series is not available. I do not know if this is because she does not have it, or because she has not finished writing it. Anyways I think it was written in an honest style, was pretty sexy, and was also helpful in understanding the reality of different people's sexual preferences. Would probably be useful to read for someone wanting to spice up their sex life/ get some fun creative ideas for sex, or for anyone who is starting out as a sex worker. Apparently prostitution is legal in Australia? It does seem like australians are a happy bunch, in general.

I wonder where is book # 3? I would have loved to read it right after book #2 as i did with book #1, but i cannot find it. This book caught my attention, it was very interesting. One thing they never mention that i was very curious about was how much money can you make being an escort or work in a brothel. The writer writes about how good the money is in all references, but never says how

much she actually made, which is why I started reading the first book, I wanted to know but never found out.

Had my face in my kindle from beginning to the end it was another page turner. The way that the author describes her m.i.l. and the lone of work it has such great and funny details. It was a great second book and I can't wait for the third one in dec!
