I feel like he's taking over who I was and making me into something he wants me to be. His slave and his disciple. I do know that I'm his property. His child, his blood runs through my veins and with it comes something so powerful that it consumes me in every way. He plans on teaching me what that means and I don't know who I'll be at the end of his lessons. You know its something to be said about fighters, its a show of tenacity and valor in fighting for one's own sense of honor. But when is it time to give up the fight and accept that the situation you are in...is just that. I even tried to feel sorry for Noel...then time after time he f'd something up and

get punished...severely I might add. His Sire a Master Vampire in his own right, a sadist extraordinaire, a male that revels in the pain he gives. Lessons is just that...Noel being taught what is expected and how he will act. You'd think after the "punishment" the eve before he'd be more willing to leave his attitude and wants at the "door". 'Lord Theoden wants his boys to meet his new "toy" all seven he calls to him. When Noel refused to show his appreciation for his meal it sets in an event he may think he will hate. Noel is quick to blame his new response to the erotic stimuli on the fact that he was turned, but is it really because of that? That he finds himself responding to his Lessons? His Sire/Master mentioned to him earlier that pain didn't have to be punishment, the choice was his. Now I adore Theoden (yeah I'm a bit touched maybe. Smiles) Noel I just want him to realize his life is forever changed. Out of all the brothers I can say I like Bruce and maybe Ryu, though Donovan I'd love to stake him in the sun. This series has caught and intrigued me, each book short sweet and to the point but still manages to give you the personalities of the characters. I can't say it's fun, (smirks) but dark and intense. It's not butterflies and rainbows... but if you like dark and Vampires, A sexy god like sadist, grab this read it. Read the others first though... lol Enjoy

This was a short quick read that was ok. This was the third book in this series and I didn't realize it until I started reading it. This short story revolves entirely around blowjobs and oral sex. Noel must service not only his Master but his "brothers"™ and he must do it whilst having his own cock caged. At the first sign of rebellion Noel learns about rimming whilst being beaten bloody with a crop. Where Theoden is concerned there is no compromise and any slight to his brothers or infraction of the rules and his behavior will be dealt with viciously and quickly. This book was well written and I will be reading the rest of the books in this series.

This is got to be one of the best series that I have read in a very long time. This is a dark erotic bdsm like paranormal story that is so refreshing and new that makes it so intense that you read through it and are so excited for the next installment. This series MUST be read in order or it will make little sense and you will not get the true enjoyment from it. Definitely one that I have recommended to friends and one that is in my favorites section in my Kindle.

4.5 stars - I am definitely hooked on this deliciously dark little series. There isn't™ any fluff here, no romance, though I suppose you never know. Perhaps Theoden will eventually soften a bit towards Noel? If so, it doesn't™ seem like it is going to happen any time soon. Theoden is pretty set in his ways. He seems content with his station in life and with his "relationships." • I mean,

what more could he need? His "children" provide everything he could want. Noel is his latest addition, or project, if you will. He is deep into Noel's training "teaching him his place and what is expected of him. Noel is still fighting, though he is giving in more and more. He is finally understanding or coming to grips with the fact that the consequences are not worth the fight and things will be over much quicker and with much less pain if he just gives in. He is still having some trouble accepting that he is having to do all of these things with other men, as well as his reactions to the activities. His bond through Theoden and his "brothers" is not helping matters any. While this was my least favorite of the installments so far, it seems a necessary step in the scheme of things, as Theoden takes his time initiating Noel in how things are going to be. He doesn't ever rush things, no matter how much begging Noel does. This segment is mostly about teaching Noel oral skills, and all the "brothers" participate, much to Noel's disgust. Theoden is pretty much covering every base in these trainings, using reminders of what disobeying means to quickly snap Noel into submission. As with the others, this is a super fast read, and it feels as though once these basic instructions are through, the story will be ready to really take off. Getting there is a really enjoyable ride, even though Noel is paying the price. Again, I can't wait for the next one.

Noel continues to be stubborn and has to be taught he must obey or there are consequences. Theoden reinforces his lessons and uses his other progeny to help get the point across. This Series is definitely not for the faint hearted! A definite must read! On to book 4!

Well after three books you would think I would be used to the abuse given to the main character..... nope. Why do I continue to keep reading the series? One I don't like to give up, and two I keep hoping I'll find something redeemable about the abusers.
