Fantasy Of Fire (The Tainted Accords Book 3)

Synopsis

Fantasy of Fire is the third title in The Tainted Accords. An army is half way to Glacium. And not just any army - it belongs to my mother. Time is running out as I rush to prevent a war which will kill thousands; The Solati people, my brothers, and the many Bruma I've come to care for. Yet it appears preventing this interworld war is just one snowball in an avalanche of problems as the situation in Glacium becomes volatile and destructive. My various identities hover on the edge of discovery forcing me to consider drastic action, and questions I've had since the abrupt end of the peace delegation are answered. The two halves of me tug in opposite directions. The Tatum of Osolis knows what she should do, and the Olin of Nowhere Special finally knows what feels right. What it really comes down to is, am I brave enough to follow my heart? Praise for Fantasy of Flight (#2) - Kelly St. Clare has quickly become one of my favorite authors and I am now a fan for life. - AmiesBookReviews. "This story is wonderful for teenage girls, young women and the all around book lover." - GenuineJenn (Warning: Cliffhanger ending, sexual themes, swearing, and kick ass).

One of the best fantasies I've read in a while, almost as good as an Ilona Andrews book. I gobbled

up all 3 volumes, one after the other and even cut some sleep hours to do this (bad, bad me, but so so good KellyStClare). I absolutely loved the world building and character development, the touches of humour and the dash of romance (I wouldn't have minded a bit more of this., but I'm just greedy that way). Can't wait for the next installment. So glad I found a new author!!!

Why 5 STARS? The sky is full of them, and none of them are more beautiful than the other. That's the way I feel about this series, one book was not any better than the first. They were ALL WONDERFUL and a sky full of stars to you Kelly instead of 5. I just HATE HAVING TO WAIT for the last book. October can't get here fast enough!!!!!!! GREAT FREAKING AWESOME.

Just don't let her brother or the king or his brother get killed. ~%I wouldn't mind seeing more use of her skills or discovering fighting techniques easily mastered because of her years of suffering with restricted vision due to the veil. But who am I to suggest to one of such writing talent.Bravo!

A unique scenario and engrossing story line that kept me up well past my normal bedtime. The author is creative with good descriptive writing and some very good and sometimes humorous analogies (i.e. to avoid looking at him, I started a staring contest with a table) or something like that. Well developed characters whose personalities and feelings are exposed through dialog and actions as opposed to narrative explanations. A good read, highly recommended. Eagerly awaiting book four. Hi Kelly.

One of the most epic books I've read in a long time. This series really gets you involved with the characters. Olina is a female hero in every sense of the word hero, and reading this book series you feel as if you are living her triumphs with her, not to mention the hot king Jovan.

Usually the third book in a series is lacking in some way, but not Fantasy of Fire. The plot line progresses well with just enough well placed reminders to keep the reader from being confused without retelling the previous events. The characters and world are well thought out and expressed, and the growth is evident. Well done!

Totally unique concept with the two worlds rotating & effecting the livable environment of the other, hating each other but their very existence relying on the other's continuance. This was by far the best book so far - I can't wait for the next one to come out!

Freaking. Love. This. Series. On a whim, and laid up with a bad back, I picked up the first book in St. Clare's series. I can't even tell you how glad I am that I did! I've just finished book 3 after two days of binge reading all of the books in this series thus far and have finally paused long enough to write a review. High points: the depth and strength of her characters, phenomenal writing and editing, wonderful character development even in the secondary characters, descriptive, imaginative... I seriously cannot say enough good about this series! Low points: None. Let me explain: At first, I felt like some parts were dragging with too much description and filler, only to be SO grateful later in the story when I would read something and had an excellent reference point BECAUSE of her descriptive writing. The accuracy from book to book... Nothing is missed. This isn't a flash fire of a series, it's a slow burn. A wonderfully gradual build to what I am certain will be an epic conclusion in the 4th and final installment. Kudos to you, Kelly, you have earned yourself another book junkie. I am eagerly anticipating the conclusion.
