# Certain Girls: A Novel (Cannie Shapiro Book 3)

## Synopsis

Readers fell in love with Cannie Shapiro, the smart, sharp-tongued, bighearted heroine of *Good in Bed* who found her happy ending after her mother came out of the closet, her father fell out of her life, and her ex-boyfriend started chronicling their ex-sex life in the pages of a national magazine. Now Cannie's back. After her debut novel -- a fictionalized (and highly sexualized) version of her life -- became an overnight bestseller, she dropped out of the public eye and turned to writing science fiction under a pseudonym. She's happily married to the tall, charming diet doctor Peter Krushelevansky and has settled into a life that she finds wonderfully predictable -- knitting in the front row of her daughter Joy's drama rehearsals, volunteering at the library, and taking over-forty yoga classes with her best friend Samantha. As preparations for Joy's bat mitzvah begin, everything seems right in Cannie's world. Then Joy discovers the novel Cannie wrote years before and suddenly finds herself faced with what she thinks is the truth about her own conception -- the story her mother hid from her all her life. When Peter surprises his wife by saying he wants to have a baby, the family is forced to reconsider its history, its future, and what it means to be truly happy. Radiantly funny and disarmingly tender, with Weiner's whip-smart dialogue and sharp observations of modern life, *Certain Girls* is an unforgettable story about love, loss, and the enduring bonds of family.

## Customer Reviews

I was very excited to read "Certain Girls," the sequel to Jennifer Weiner's bestselling novel "Good in Bed," which I liked very much. Although most of the book was a lot of fun to read, the ending left me very disappointed. "Certain Girls" takes place more than a decade after "Good in Bed." Cannie and Peter are now married and raising Cannie's daughter, Joy, who is now 13 years old. Cannie and Joy alternate chapters as narrators, and they have the kind of relationship that's pretty typical between teenage girls and their mothers. Joy thinks that her mom is an overprotective pain in the butt, and Cannie worries constantly about her daughter, especially when she notices changes in Joy's behavior. Meanwhile, Cannie struggles with the notion that her husband wants to have another baby with the help of a surrogate, and Joy eventually breaks down and reads the popular book her mother wrote 10 years ago. "Big Girls Don't Cry" is a sensationalized version of the events that led up to Joy's birth, and after reading it, Joy is so traumatized that she begins to question every aspect of her life. Eventually Joy embarks on a quest to discover the truth about her mother and herself. At first I wasn't sure what to make of "Certain Girls." I enjoyed the first few chapters, but everything about the novel seemed so predictable and obvious. However, Weiner is a pretty fantastic storyteller, and despite the fact that I had most of the story figured out right away, I was completely drawn in by the book's characters and the emotions that they experienced, which are all unbelievably honest and relatable. As I continued reading, I thought that "Certain Girls" may end up being Weiner's best book to date...until I got to page 344! The last 40 pages of this book SUCK!

Jennifer Weiner first appeared on the fiction market with her novel, *Good In Bed*, a funny, smart look at modern life as viewed by a woman who's coping with stuff that the majority of women live with -- treacherous boyfriends, the constant battle with our weight, and a refreshing attitude that most of us could sympathize with. Now with *Certain Girls*, more than a dozen years have passed since the events in *Good In Bed*. Cannie Shapiro is happily married to Dr. Peter K, and the very proud mother of her daughter, Joy. After her novel -- a thinly disguised memoir of her life -- turned into a runaway best-seller, Cannie has settled into a routine of being a mom and wife, and writing science fiction novels for teenagers under a pseudonym. Everything is going good, and that's when the problems start. Joy, the darling of her parents, is hovering on the brink of puberty, and worse still, her bat mitzvah the dreaded rite of passage in every Jewish girl's life when she makes that transition

between being a child and an adult at the age of thirteen. But she has other things to worry about - such as not being one of the 'popular girls' such as Amber, the perfect girl at her school. She's also at that stage where her parents embarrass her mightily, especially her mother. Toss in the fact that she also hates wearing her hearing aids, and her grades are slipping, and Joy is heading for trouble. Especially when her Aunt Lucy - now calling herself Elle - comes to visit, intending to find Joy the perfect dress, Joy starts finding herself in a conflicting time. Now that suddenly she's being noticed by Amber and her crowd, she's losing her best friends, the twins Todd and Tamsin, and she is also reading her mother's best selling novel on the sly.
