## Customer Reviews

A very metaphysical treaty or focus on usual self-help issues. It is a welcomed fresh approach using the latest scientific facts. One thing that gladly surprised me is that Dr. Chopra seems to understand and use well the concepts of quantum mechanics and field theory to base his hypothesis about the self, also borrowed heavily from hinduism. It is a powerful blend, and the limitless power it promises almost seems attainable. A very nice treaty and a break away from the crowd, although, sometimes

the very same newness of these concepts (at least for me) gave me a little, somewhat bizarre taste of my experience of the world around me. I think this book is not ideal to go about in one sitting, it is very deep and better enjoyed in spaced listenings.

I bought this tape when it was first published. And at that time, while I was in the process of "searching", I did not fully understand the concept(s) that Deepak Chopra was explaining. However, since then I have read and listened to other books / CDs by Deepak Chopra, Wayne Dyer, Caroline Myss etc. This morning on the way to work, I listened with new "ears" to this tape and find it to be a good supplement/reinforcement to "Creating Affluence", "The Seven Spiritual Laws of Success", "The Way of the Wizard", "Manifest Your Destiny", "The Power of Intention" and "Ask And You Shall Receive". I am ordering the CD and will record it on my ipod so that I can listen to it whenever and wherever I am.

I was given this publication by a friend. At that time it consisted of a set of 12 tapes in a cassette format. I was somewhat disappointed in the CD version because much of the information was deleted. It really helped me through a pretty depressing period of my life journey. Over the years I've shared the tapes with other individuals. Some also found the information mutually beneficial.

Thanks....
