Manifestation Wolverine: The Collected Poetry Of Ray Young Bear

Synopsis

The definitive collection from a groundbreaking Native American poet whose work traces the fault lines between past and present, real and surreal, comedy and tragedy to unveil a transcendent new vision of the world. Hailed by the *Bloomsbury Review* as "the nation's foremost contemporary Native American poet" and by Sherman Alexie as "the best poet in Indian Country," Ray Young Bear draws on ancient Meskwaki tradition and modern popular culture to create poems that provoke, astound, and heal. This indispensable volume, which contains three previously published collections—"Winter of the Salamander" (1979), *The Invisible Musician* (1990), and *The Rock Island Hiking Club* (2001)—as well as *Manifestation Wolverine*, a brilliant series of new pieces inspired by animistic beliefs, a Lazy-Boy recliner, and the word songs Young Bear sang to his children, is a testament to the singularity of the poet's talent and the astonishing range of his voice.

When I peeked through the book, I knew I would like the poems based on the slice and its optimum language. As I read through, there are many lines that make me go back for example and

considerâ ^The river stood behind the sunâ ^TMhow the universal ordering is different in different culturesâ ^spider webs were in the air offering rides to the riverâ ^TMThis sentence made me go lookup grammar of 'parts of a sentence' . Main subjects become indirect objectsâ ^small black trains circling around her teethâ ^TMimagination becoming too real. Reminds me of the time when clanking of plates reminded me of a two day ride to collegeâ ^he caught a green light glowing in the pine-trees.He released it after it had changed into a fireflyâ ^TM.nothing more fascinating than transformation from an LED to a firefly. Object to life.The poems too are ordered with connecting themes likeNight enemy â “ seeing at night chip of a human bone at train tracks â “ tracks-The action in the poem feels in your imagination like the leap you take before getting into the air paragliding and while getting down.We move from spring to autumn with â ^winter must be hereâ ^TM.Hands, fingers, window, snow are recurring elements in the poem.As high school students, we read of Hiawatha but that was a by a Non Native american poet. I dont know much about the creation myths of Native American other than the smattering you pick up being in the southwest. I am introduced to a new genre (I say new genre because I have to switch my pattern of thinking of sun greater than river.
