Customer Reviews

Contains SpoilersI was hooked on this book from page one. I couldnâ™t put it down.Brynn and Marco had a one night stand that neither one of them could remember. Unfortunately (or fortunately) that one night stand turned into an unplanned pregnancy. I think that what really made

me fall in love with both Brynn and Marco was the fact that they were genuinely very good people. They were faced with this scary, unexpected situation and yes, they went back and forth and weighed the pros and cons, but ultimately they decided that trying to be friends and raise the baby together was the best possible decision for them both. One of the things I loved about this book was the fact that the story centered around Marco and Brynn coming to terms with the new life they were starting together. Yes, there was some drama with friends and potential lovers, but it really centered on their own personal journey as well as their journey together. The chemistry between Brynn and Marco was fire!! Once they began to really get to know each other and give in to their connection, it was amazing. I think my only wish would be to really see them be a couple. In the book, they were still struggling with their own lives while trying to form a unit, but we didn't really get to see them relax and just be.

In my opinion this author has done a very good job as establishing herself as a leader when it comes to crafting a sweet romance. I'm not going to lie and say that I don't enjoy some of the books with higher drama, but I also have an affinity for a well written sweet romance, and that's what she is excellent at. This book is no exception. Not only does she give the reader a romance story, but she throws in a less seen pairing of a hunky Alpha, Hispanic hero, who happens to be a male stripper, and a confident, BBW heroine. Throw in an unexpected life changer, and you have the catalyst for a sugary sweet romance that made me smile. There were some hot scenes, and frankly a few more would have been appreciated, especially given the sexy chemistry between the main characters. Overall though, I enjoyed the book, simple as that. I enjoyed it so much that I didn't want it to end. With minor editing issues, strong characters, and an engaging story, this book is a great example of why I became a Raven Dt Pierre fan after Gravity, and will continue to be so...can't wait for the next man of Indecent Exposure.

This was a true love story. Two people brought together by crazy circumstances caused by a one night stand. Marco was a sweetheart. He wasn't overbearing or controlling like most guys in alpha stories but he wasn't a pushover either. I loved that he was not too over the top and Brynn was not a weak female that needed saving even after losing her job she was still determined to stand on her own. What really surprised me was the lack of drama or overbearing other love interests that can't seem to let go. Every page I was like oh my hear it comes.....lol. The flow to this story was a natural flow like this could actually be true to life, there was an instant fall in love and then they are married, we got to watch the love and bond build and grow between these two characters which is rare these

days. The only thing I wish was that we got to see more interaction from the other characters. As close as Marco is with his "brothers" Logan, Justin and Carlos you'd think they would have met Brynn way before the shower that just seems natural especially since she was around him all the time. In either case this was definitely worth the read and I am looking forward to the next chapter with Justin and Sid. Hopefully we get to see how Brynn and Marco's relationship is progressing.

This book was a pleasure to read. Raven St. Pierre is an excellent author. Obviously there are many IR novels out there where unexpected pregnancy is the topic. This one is so unique in the angle from which the story was told. First of all, there was no "drama" with Brynn telling Marco she was pregnant. I ABSOLUTELY LOVED that. She knew he had a right to know, stressed over telling a stranger she's having his baby and then did it. She didn't stress over whether or not she should tell him, just how the conversation should go. Simple, realistic, honest !!! What more can you ask for?? The story followed the pregnancy and their budding relationship through the length of the pregnancy. Beautifully done! Loved that they were both honest with each other about their "almost" involvement with other people and how this unexpected pregnancy affected that. Really liked the honesty in the reaction of her "almost" boyfriend Naseem. They were just beginning to build a relationship when this happened. They had been long time friends just beginning to become more than that. Marco is a hunk of burning love !!! I am almost sorry he had to stop dancing ... whew!! I can just picture him on the stage. Hot stuff !!!!! Great read!! Won't divulge more of the storyline. Just know that it's worth every penny you spend on it.

I am a huge fan of Raven St. Pierre ever since I read her "Free Falling" series. So happy to purchase this book and fall in love with this series as well! Brynn and Marco are not your usual couple and develop a relationship because they have to due to consequences of their one night stand - we all know what that is! Even under the circumstances you know Brynn is a good woman that did something out of character and Marco - even with the presumptions that come due to his night job, is a really great guy and the back story of why he went into that area of business is so honorable. I won't say much more as I don't want to give anything else away. Get this book, it is worth every penny you spend on it. I am looking forward to the next installment!
