## Customer Reviews

Seducing My Assistant is book 3.5 in the One Night Stand Series by JS Cooper. This novella starts off right where things ended in Falling For My Boss. You must read Falling For My Boss first to understand the dynamics in this book. Scott and Elizabeth have finally come together and then her past collides with her present and with it comes secrets and shame she so desperately wants to forget. JS Cooper keeps you guessing just what secret Elizabeth is hiding. Elizabeth questions everything and doesn't know if she can trust again. My heart breaks for her and Scott. His feelings

for her are strong. I loved his point of view and knowing how he truly feels. You've got to read this book and find out if Elizabeth's secrets are revealed and if she is able to forgive herself and find love. I loved this book and I am looking forward to the next book in the series, *Falling For the Billionaire*, which is Elizabeth's best friend Lacey and Henry's story.

J.S. Cooper gives us a great novella sequel to *Falling For My Boss*. This novella answers all your questions from the end of *Falling For My Boss* about Eliza and Scott. I won't reveal any spoilers, but there are surprises. Also you get a look into what may be coming up with Henry and Lacey in *Falling For The Billionaire*. This was an exciting and fast read, with an HEA. As with all J.S. Cooper books, there are directions the story goes that I never would have thought of. So if you have read *Falling For My Boss*, take an evening and dive right into *Seducing My Assistant*, you'll have a great read.

Loving this 2nd book to this series, Elizabeth and Scott are working at trying to get back together, then her ex shows up, suddenly wanting to get back together, and brought someone to see her. Why now, and who did he bring with him?? And, why after all these years? Will she and Scott be able to work things out? Will she go back to Shane? More lies, deception, and then she is worried things will be uncovered from her past, that once out, will/ may ruin things forever??? Great story, loved it!! Cannot wait for book 3.

*Seducing my Assistant* was a very quick read that kept you guessing what will happen between the characters Eliza and Scott. There was a bombshell of a surprise at the end of the previous book so I couldn't wait to get my hands on this one to find out what was happening. I thought that Eliza was pretty indecisive in this book but I loved Scott! I just think that after the shocker in the first book he had a right to be hesitant towards Eliza but he wasn't. He was so caring and compassionate towards her. "You're the first thing on my mind when I wake up. The last thing on my mind before I go to sleep" "Trust me. Trust in me." Scott just always seemed to know the right things to say to melt your heart and make you fall in love with him even more. There was also the ex boyfriend that came into the picture... Shane. I didn't like Shane from the very beginning. I had this feeling that he was up to no good and wanted Eliza to stay away from him. With it being her first love it wasn't so easy. "At one point, this man in front of me had been the love of my life. At one point, he had been my everything. My absolute everything. And now, I felt nothing." I felt we were left hanging with the situation between Eliza and Lacey. I hope there will be some kind of resolution for that issue in the next book that is about Henry and Lacey! I can't wait to read that to find out what happens with

those two characters!

Great Book and awesome series. Just when Scott & Elizabeth start to get back together and on the right track the past comes rushing in to ruining everything. A great continuation of Falling for my Boss. A definite Must Read

This entire series is one of the best these two have ever produced. And if you read them in order, they will be even better, I promise! Just as Scott and Eliza both realize that what they have together is real and could last a lifetime, there is a knock on the door, and not one, but two surprises await them on the other side. And, believe me, I will never spoil it for you! There is no doubt in your mind that these two lovers were truly meant to be a couple, but doubts spring to life as soon as that door opens. I personally wanted to slam it shut for them, and say, "Oops! Wrong address!" But they get to spend nearly a hundred pages working it out for themselves. And that's a good thing - no, I'm serious here! Just think: if a doubt can spoil their love for one another, then it wasn't real in the first place. So hang on for their HEA! They will surprise you.
